

# ubuntu installfest

ubuntu-uk   
local community team

Upgrade your computer to the Free operating system everyone is talking about. Ubuntu 10.10 "Maverick Meerkat" will be released on 10/10/10 and we are holding **installation parties** all over the country.

Bring a computer you don't mind wiping (anything less than five years old will be fine) and be prepared to learn and be impressed!
