Don't Kidding Our Chinese Users

- China is a **big** market
- Ubuntu never has **perfect** Chinese support
- Tell them these bugs are **critical** for us
-but don't just **spamming**

Unity is cool. But...

A Search Field Without Chinese?

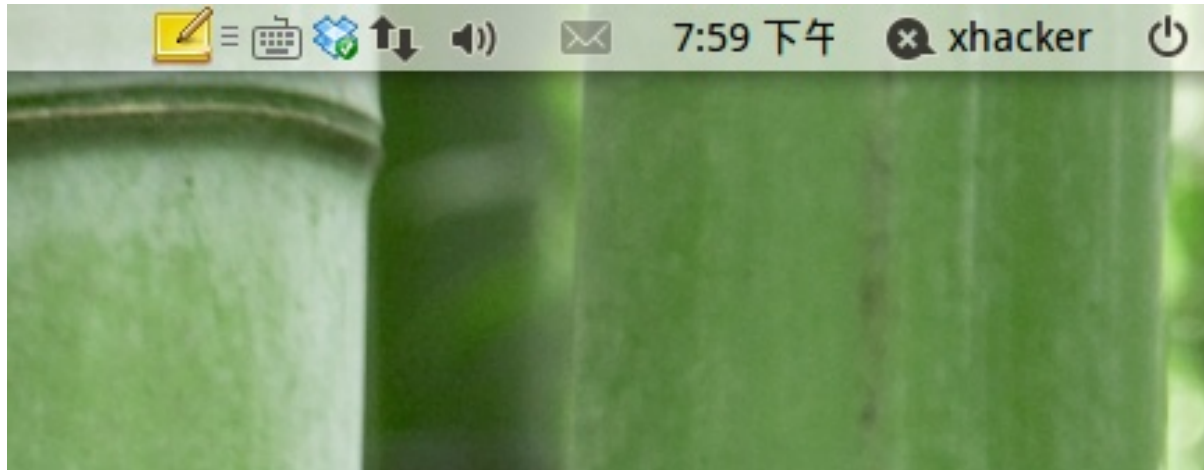

- Bug 663776
- Ibus is not usable in the search box
- What the hell...

Where is the Bashful Clock?

- Bug 764614
- Show date and
month
- What?!

You Should Be an Indicator

- Bug 751261
- Sometimes iBus falls back to notification area :(
- And even disappear in Unity!

Chinese Password? Wow...

- policykit
- Gnome-screensaver
- Gksu

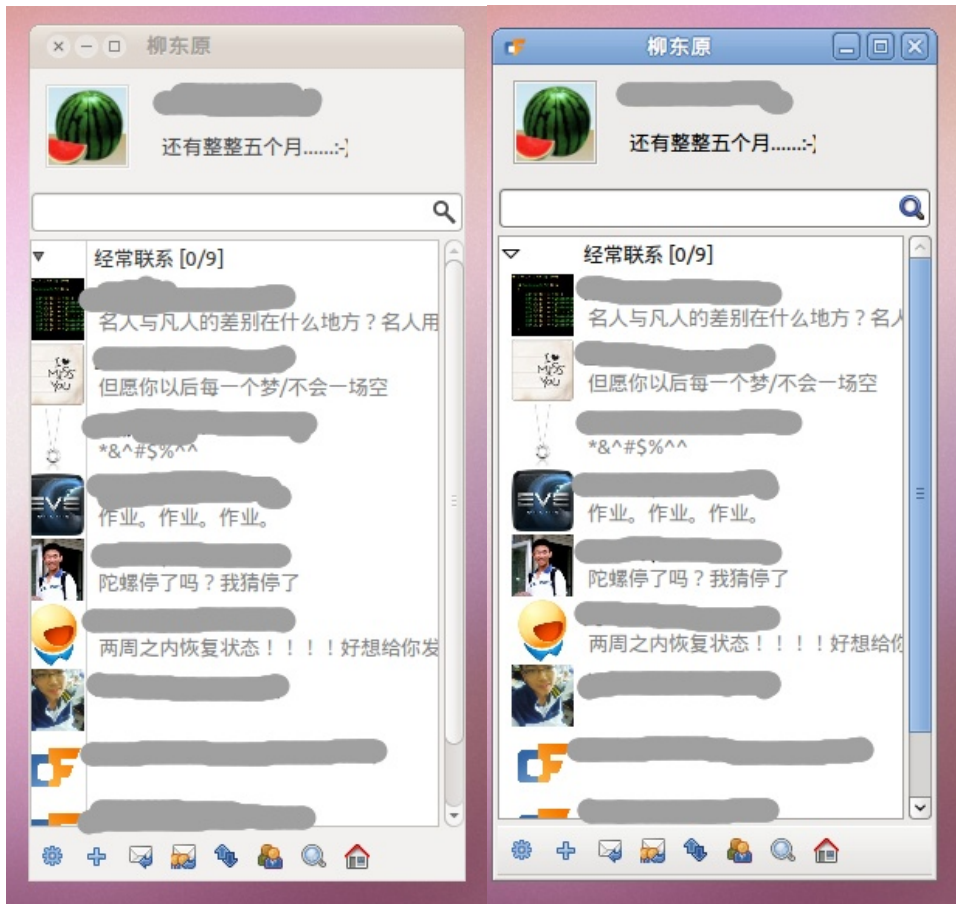

- Bug 625634
- Anybody using Chinese password?
- /* and now you know my password's start with a 'd'... */

Don't Color My Favorite Font...

- Bug 216875
- This is my favorite font, why it looks colorful!

OpenFetion 躺着也中枪

- Bug 645952
- @levin108 rocks
- The **best** fetion app
- “Levin, see the icons.”
- @levin108:

躺着也中枪……

Thanks
