KDE Philosophy

- Get it done NOW!
- Focus!
- Use available tools rather that recreating existing ones!
- Don't talk act!
- Improve iteratively.
- Start with reasonable functionality and configurability - then improve over time.

Why I love KDE so much?

- Customizability
- High Integration
- Free to Choose

Concept and Technics

- Plasma
- KParts
- KIO
- Nepomuk
- Akonadi
- Attica

Plasma

The desktop shell of KDE.
Everything can be easily customized.

Plasma Desktop

Desktop Shell for PC

Plasma Netbook

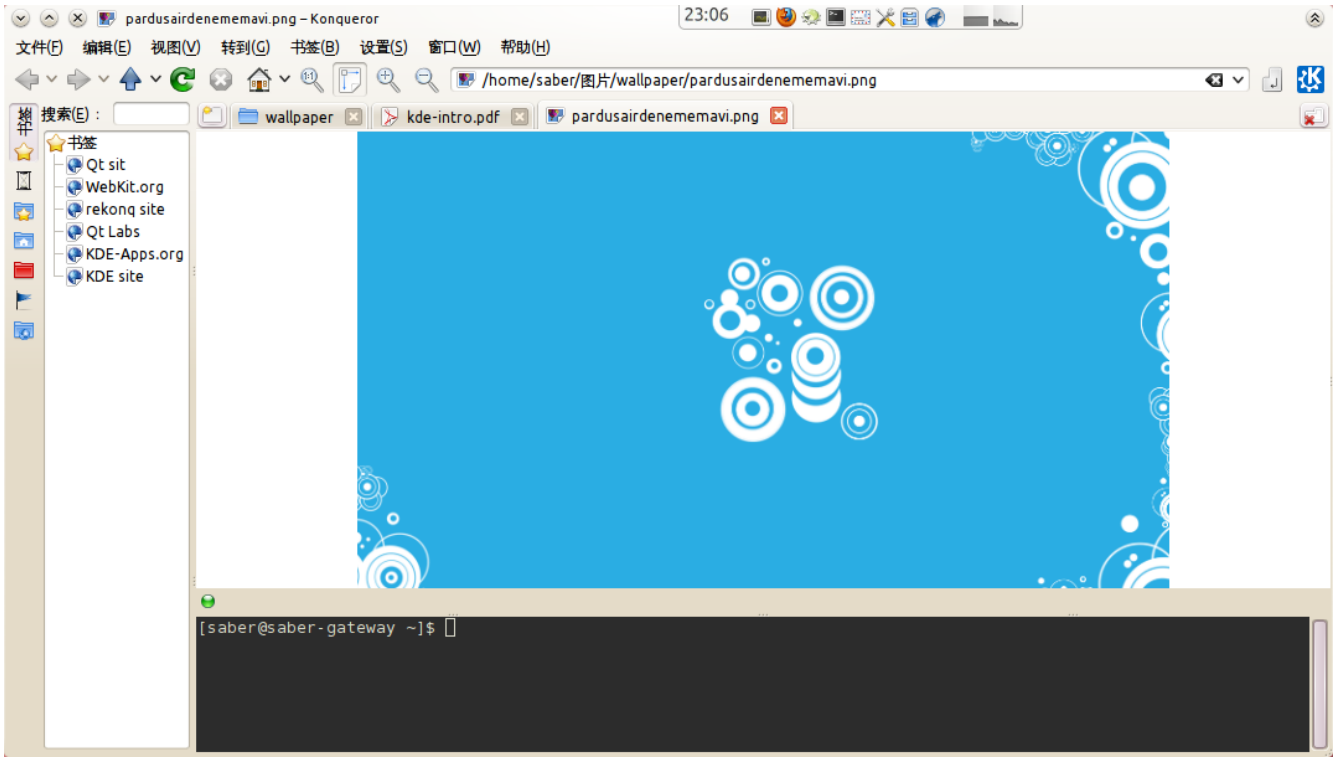
Desktop Shell Designed for Netbook

Plasma Mobile

Unreleased for Mobile

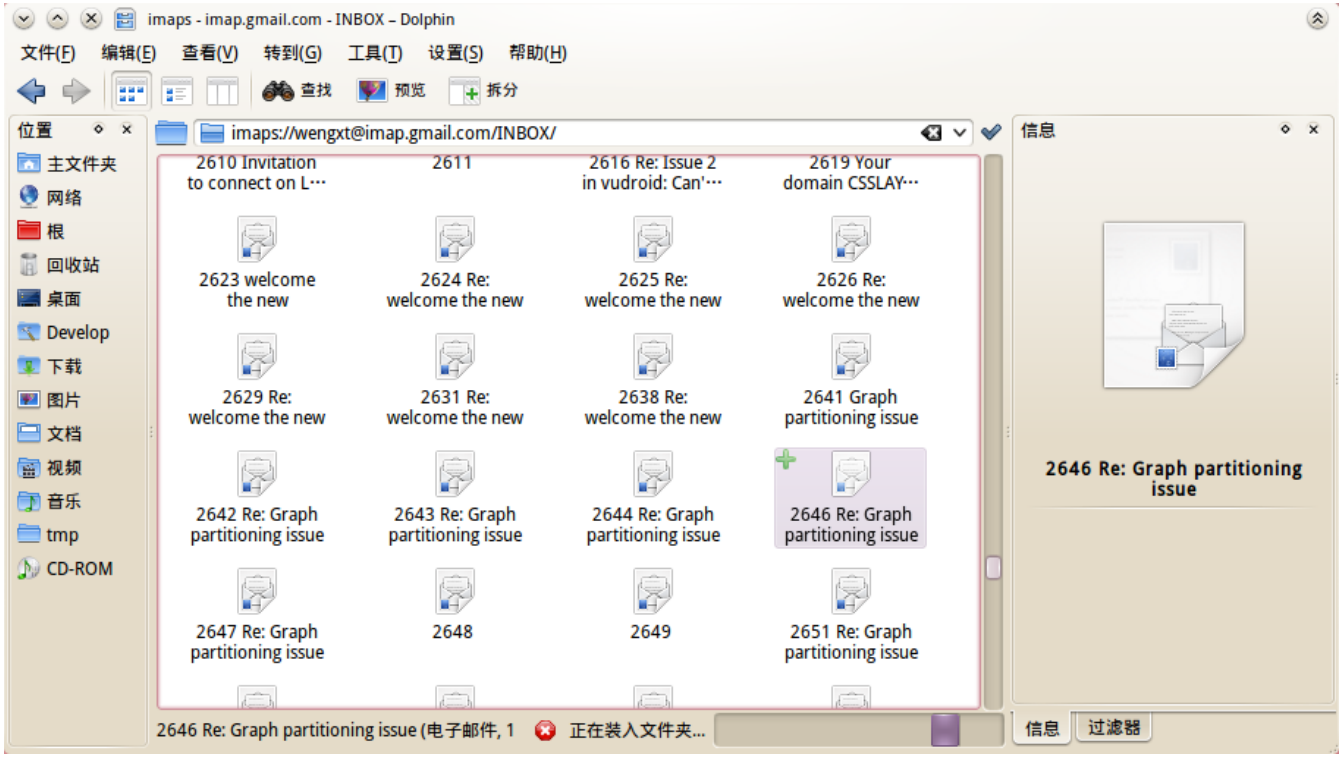
KParts

Spirit of KDE.
Maximize the interoperation of Desktop.

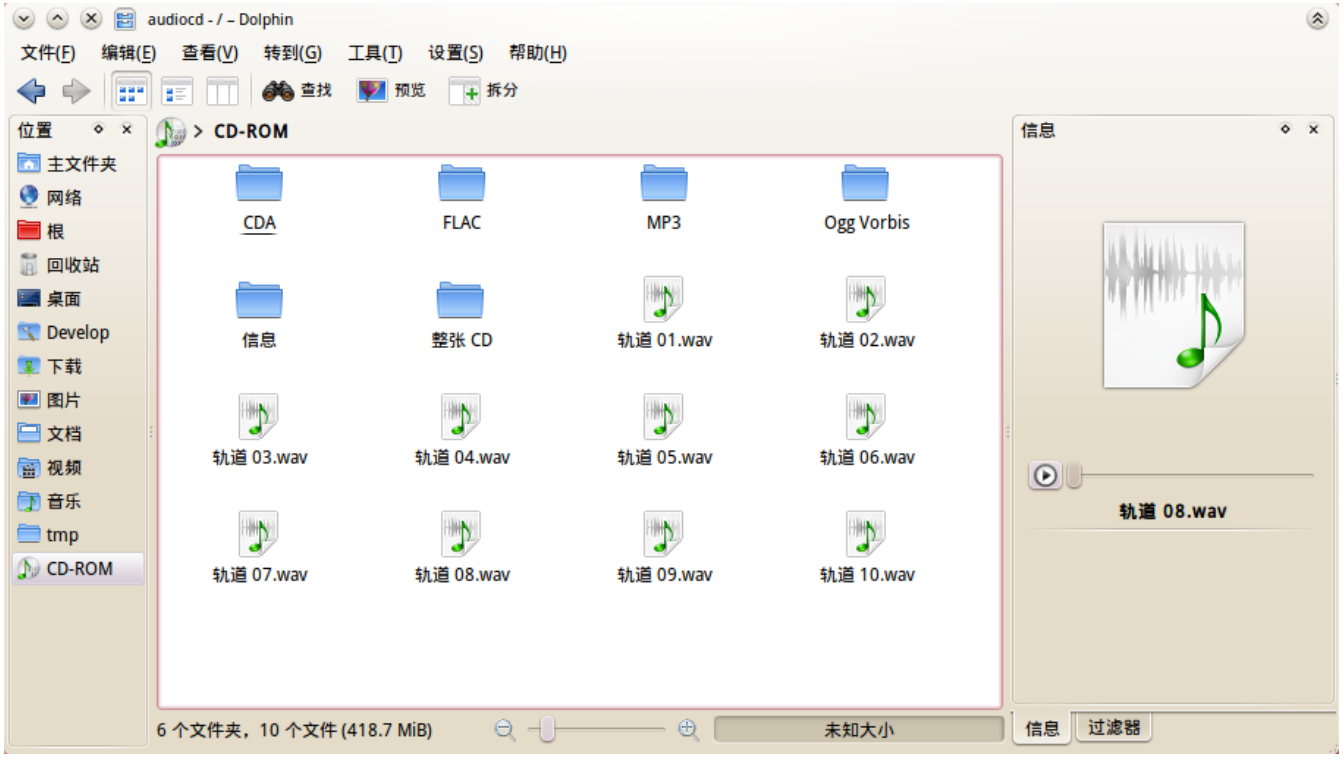


KIO

Easy to access everything, Anything that you can think of.
HTTP, FTP, SFTP is too simple!
Think about IMAP or even Audio CD!



KIO



audiocd - / – Dolphin

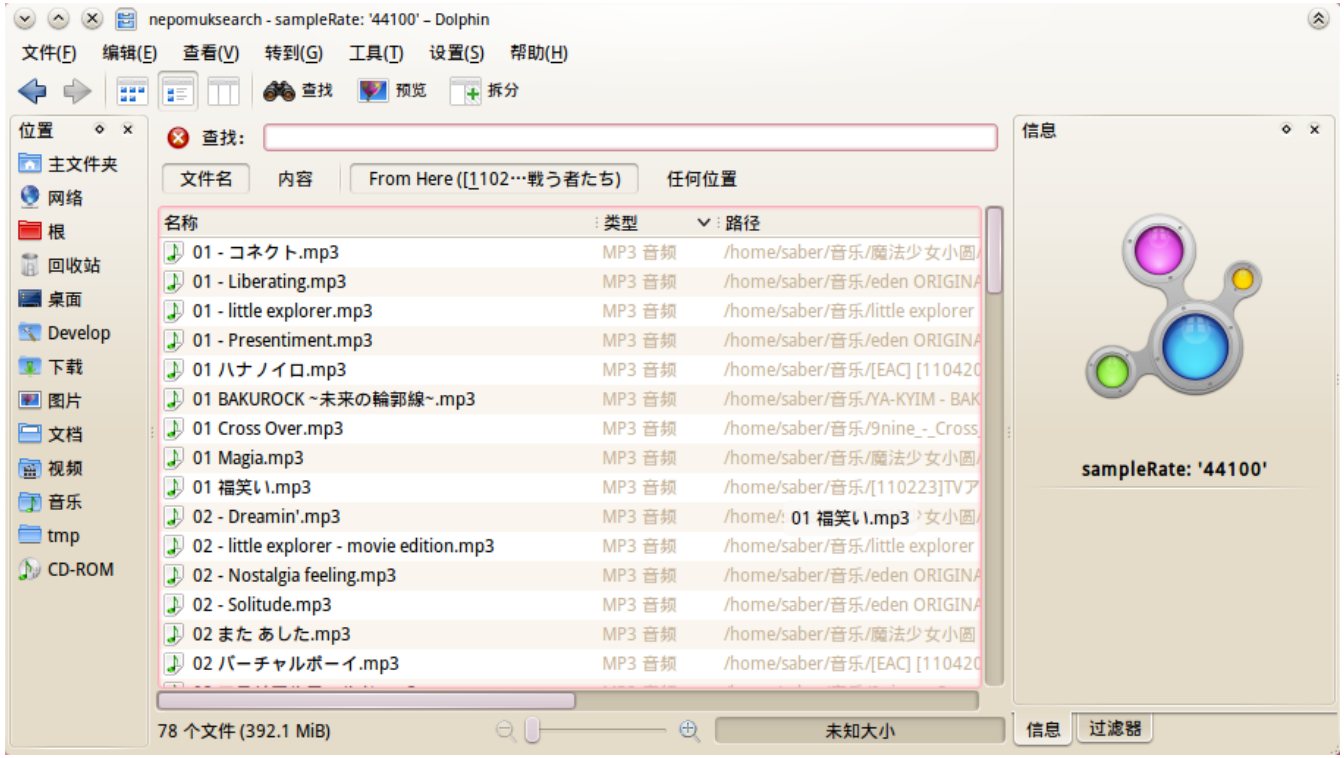
Nepomuk

Index metadata in efficient way. And search with Metadata

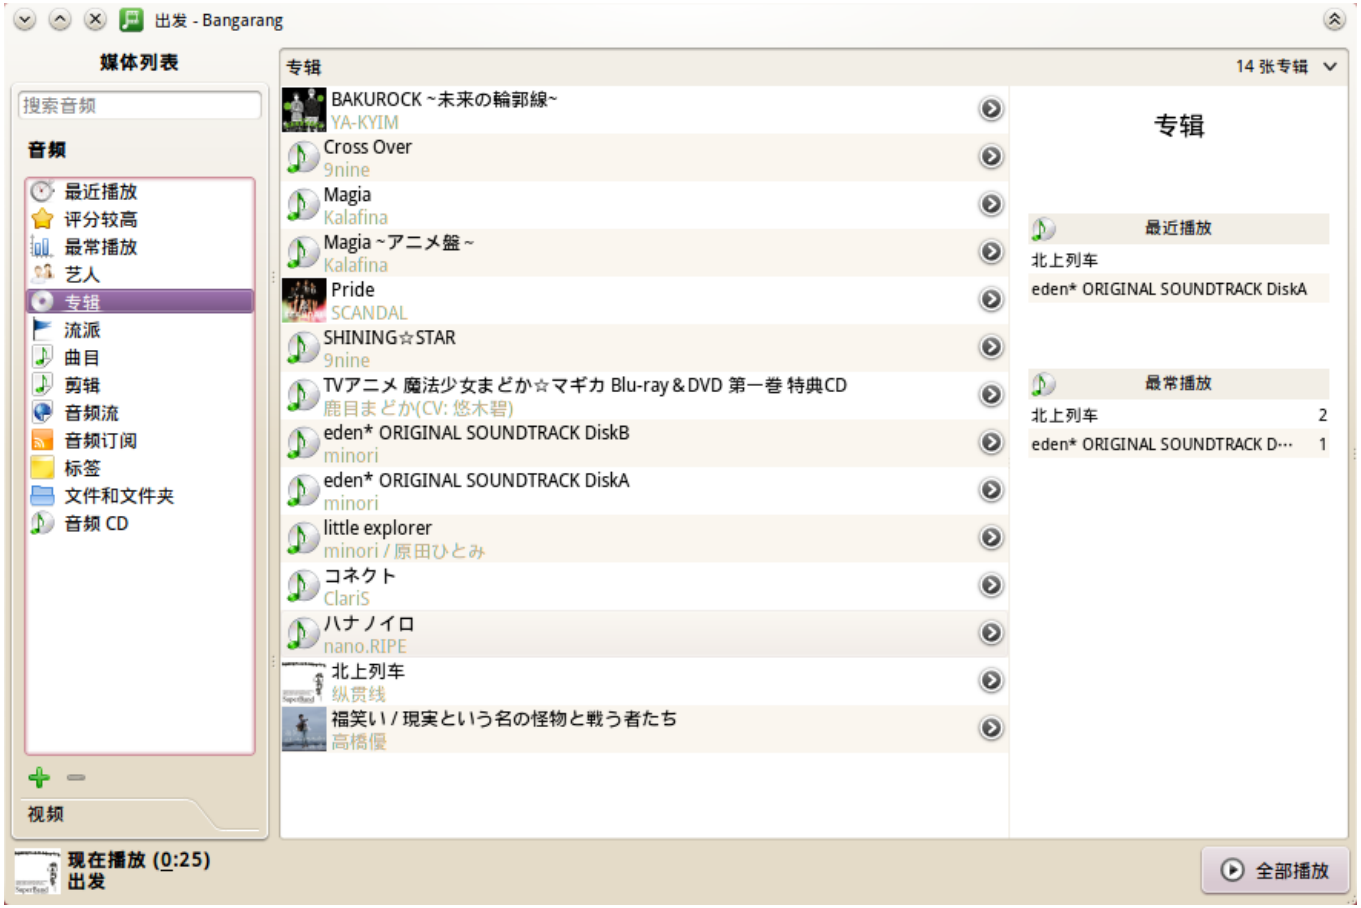
Dolphin with Nepomuk

Search by anything that you can think of!
Word count, Programing Language, Image size, Image ISO, MP3 Bitrate, Sample Rate, Score ...



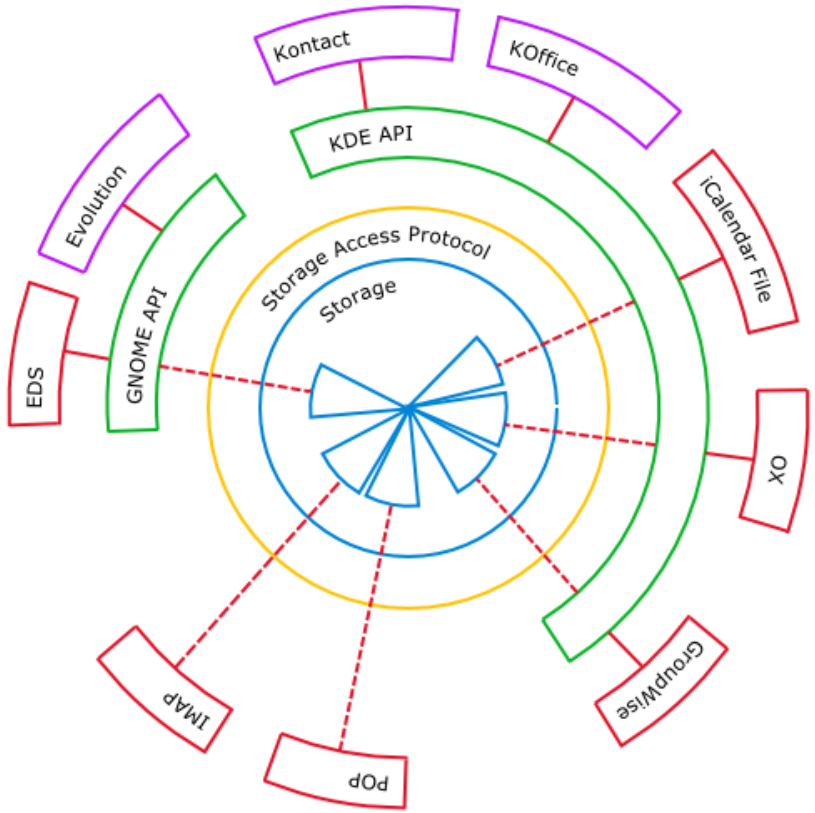
Bangarang with Nepomuk

Media Player which use Nepomuk as its Metadata storage.



Akonadi

Make personal info together.



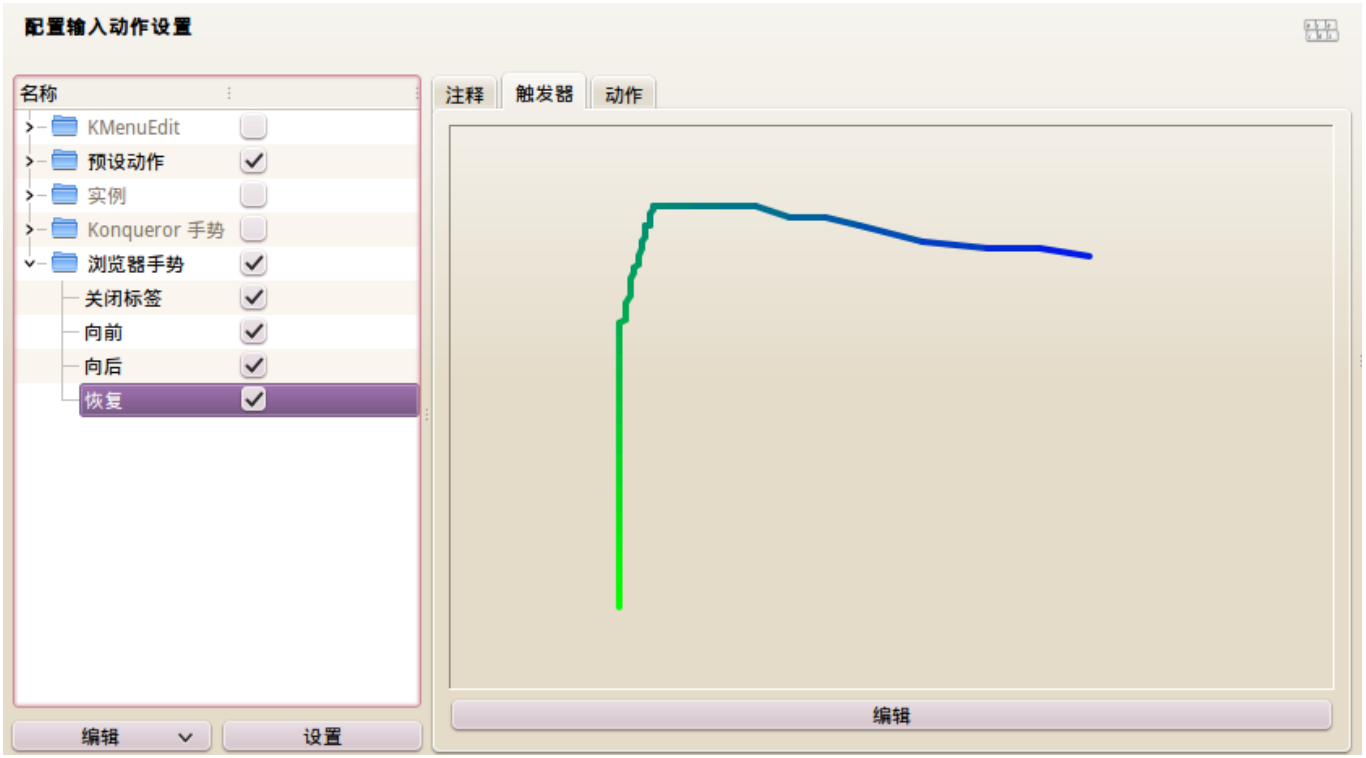
Open Collaboration Service Providers

Get Hot New Stuff

Integration with OpenDesktop.org! Download and install new eyecandy from kde-look.org.

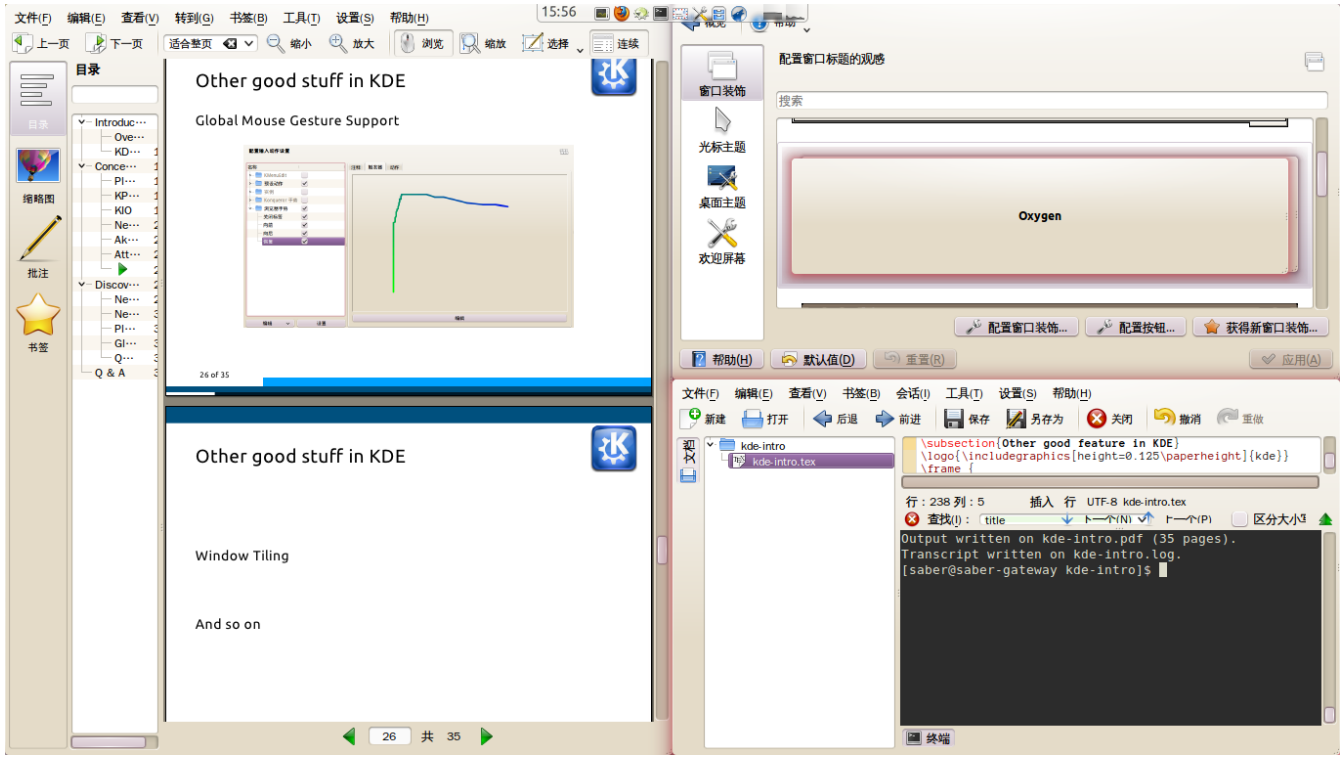
Other good stuff in KDE

Global Mouse Gesture Support



Other good stuff in KDE

Window Tiling



And others waiting for you to discover!

Brand new Installer
