

Xubuntu 12.10

Plenary talk at UDS Q

2012-05-10

Elizabeth Krumbach, Xubuntu Marketing Lead

Redefine the community

- The Xubuntu team is a small team:
We need to review our working methods and make them more effective
- We need to improve our communication both inside the team and with other teams
- Our Strategy Document is four years old – we need to review it as soon as possible

In the 12.10 cycle, we will also...

- Rewrite our offline documentation – that's mostly four years old too
- Rethink our default applications
- Continue polishing the user experience from boot to shutdown
