

Installfest Talking Points

Thank you for sharing this information with your students. We would like to provide a summary of topics to help you discuss the upcoming event and anticipate questions from students.

Installfests – <http://www.oclug.org/installfest.html>

- A party where computer experts help others install software.
- Event is free to attend. Coffee and donuts provided.
- Presentation will introduce Ubuntu, with Q&A to follow.
- All attendees will receive 1 free Ubuntu 14.04 LTS DVD.
- One free Android tablet will be given away during event.
- Attendees can bring desktop or laptop for free Ubuntu installation.
- Attendees are responsible for backing up all files and data beforehand.
- Must sign release of liability to receive computer work.
- Ubuntu is being featured but we are happy to install other Linux distros if asked.
- It's okay to attend without a computer just to learn more.

Ubuntu – <http://www.ubuntu.com/>

- Most popular free operating system (OS) in the world.
- Comes with web, email, office software, messaging, and games.
- 5 years of security updates and free upgrades to newer versions.
- Powerful enough for experts but friendly enough for everyone.
- Runs on desktops & laptops, PC & Mac, coming to phones & tablets.
- Can replace current OS or be installed alongside for dual-boot.
- Can replace out-of-support Windows XP on older computers.

Orange County Linux Users Group (OCLUG) – <http://www.oclug.org/>

- Meets every month.
- Social group for Linux users and enthusiasts of all ages.
- Presentations, computer support, and conversation.
- Great way to learn more about Linux, computers, and open source.
- Public meetings, everyone welcome, free of charge.
- No Linux experience required.
- Internet mailing list provides continued discussion and support.
